Service	<b>Measuring</b> <b>Mounting</b> <b>Mounting instructions</b>	Possible with price supplement Possible with price supplement Available
Technical details	<b>Advice</b>	<b>Standard:</b> width is the width of glass + profile <b>Customized:</b> we adapt the glass to your demand. This is from tile to the end of the glass U-shapped profile gives +3,5 mm / -3,5 mm flexibility A profile or glass should always be put on the tiles. If not, this can give issues on watertightness Keep dimensions and weight of the glass in mind when preparing. Can the glass be brought into the bathroom?
